MCITP: SQL Server 2005

| Database Administrator |
| Database Developer |
| Business Intelligence Developer |

Integrated with Microsoft Visual Studio 2005 and the Microsoft .NET Framework, Microsoft SQL Server 2005 is a trusted platform for developing highly secure and sophisticated database applications. The data encryption, analysis, reporting, and sophisticated security features help organizations make strategic decisions at a reduced cost. Classroom training is designed to help you upgrade your skills and build expertise on SQL Server 2005 with the help of outstanding learning content. Microsoft Certification is one of the best ways to display your skills on technologies such as SQL Server 2005.

Also Available: - SQL Server 2008 courses
- MCSE: Security and MCSE: Messaging

- Visual Studio 2005 courses
- Oracle Certified Professional 10g
