

# Microsoft® Visual Studio® 2005

**MCTS: .NET Framework 2.0**

| Application Development Foundation |  
| Web Applications | Windows Applications |  
| Distributed Applications |

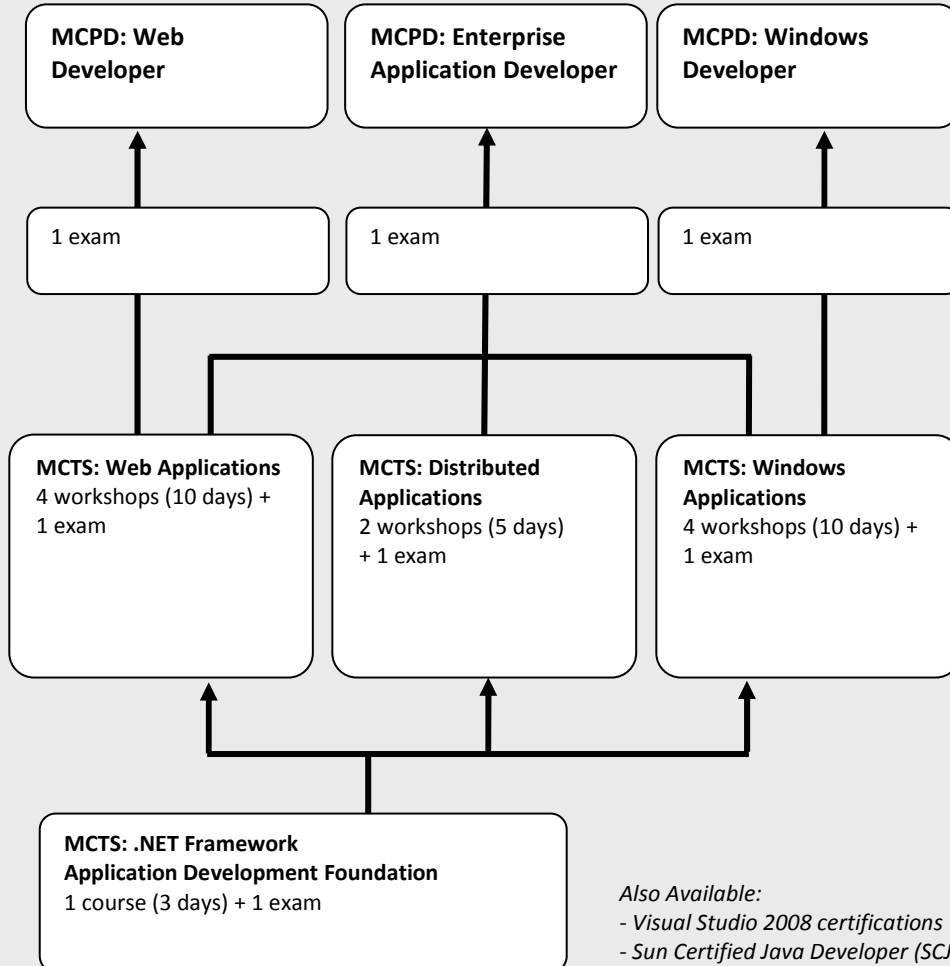

**MCPD: .NET Framework 2.0**

| Web Developer |  
| Windows Developer |  
| Enterprise Application Developer |

**Microsoft®** **CERTIFIED**  
*Technology Specialist*

**Microsoft®** **CERTIFIED**  
*Professional Developer*

Microsoft Visual Studio 2005 is a proven suite of tools that brings individual developers and entire software development teams robust features for effective collaboration, results-driven productivity, and continual quality assurance. These features help build effective Windows, Web, mobile, and Microsoft Office-based solutions that organizations rely on. If you are a developer in any specialized job role, Microsoft Learning offers a diverse range of innovative training products, including personalized Learning Plans to guide your training, certification, Microsoft Press books, skills assessments, classroom training, and e-learning (online) solutions. Whether you learn better in a group setting or independently, Microsoft offers you comprehensive training that helps you build technical solutions and advance your career.

Also Available:  
- Visual Studio 2008 certifications  
- Sun Certified Java Developer (SCJD)  
- MCTS: SQL Server 2005
